## Summary

---

I am a front-end web developer who is well versed in HTML5, CSS3 React.js and JavaScript. With a solid foundation in front-end technologies, I specialize in crafting user-friendly web experiences, focusing on the client-side web applications using modern web technology. I am highly motivated, eager to contribute and excited about the opportunity to apply my skills and knowledge to real-world projects and learn from experienced professionals in the web development field.
